Sustainable Impact represented $15B in new and potential business for HP in 2017
HP Supplier Code of Conduct

This World Day Against Trafficking in Persons & every day we’re #HPproud to work with @TATKylla in taking actions like requiring product transportation carriers & sub-contractors to comply with TAT program principles. Learn more: hp.tl/6012DSfTs

“HP is a great example of utilizing their sphere of influence in the fight against human trafficking. Imagine if every company followed suit.”

Kendis Paris, Executive Director, Truckers Against Trafficking

“HP Supplier Code of Conduct”
Creating positive local impact

We invest our time, skills, and resources to help build vibrant, healthy communities

**When disasters strike, we are there to assist**

In 2017, the HP Foundation provided $505,000 to assist with disaster relief and recovery efforts in Mexico, Peru, South Asia, and the United States, and funded $250,000 in disaster preparedness initiatives.

In the United States, the HP Connection Spot provides emergency connectivity to people who are unable to communicate due to a natural disaster. Employee volunteers are vital to the program’s success—80 HP volunteers staffed the Connection Spot when it was deployed in September 2017 following the devastating floods caused by Hurricane Harvey.
## Planet

**Climate change**

- **Reduce Scope 1 and 2 GHG emissions by 25% by 2025**
  - Progress: Achieved

- **Use 40% renewable electricity in global operations by 2020**
  - Progress: Achieved

- **Help suppliers cut 2 million tonnes of CO2 equivalent emissions by 2025**
  - Progress: 57% achieved

**Natural resources**

- **Reduce supply chain GHG emissions intensity by 10% by 2025**
  - Progress: 8% achieved

- **Reduce potable water consumption in global operations by 15% by 2025**
  - Progress: 5.9% achieved

- **Recycle 1,2 million tonnes of hardware and supplies by 2025**
  - Progress: 22.5% achieved since 2016

- **Zero deforestation by 2020**
  - Progress: 81% achieved
Role of Green Freight programs?

• Better granularity of data
  - Decision making (CO2 Impact – global/regional)
  - 2025 GHG Reduction Goal
  - Sales requests (Sustainability components)

What’s a big concern?

• Transition from current methods to GLEC Framework
  (average or actual fuel use)

What is the Future Sustainable Vision?

• Omni Channel, Drones, Self-Driving vehicles, Zero Emission Fuels and Vehicles, Solar, Floating Warehouses, Underground Delivery networks
• 3D Printing
Thank you
