Business Collaboration
Clean Cargo Work Group, Sustainable Air Freight, and Future of Fuels
About BSR

We are a global nonprofit organization that works with our network of more than 275 member companies and other partners to build a just and sustainable world.
Clean Cargo Vision and Mission

Clean Cargo members share a vision of a container shipping industry that is a responsible part of sustainable supply chains, which supports clean oceans, healthy port communities and global climate goals.

To realize this ambition, members engage collectively on:

- **Measurement, Reporting, Verification**
  Measurement, reporting and evaluation of environmental performance data in marine container transport

- **Best Practice Sharing**
  In person meetings, webinars, tools for procurement integration and environmental performance improvement across full value chain

- **Responsible Corporate Engagement**
  Supporting responsible corporate engagement with stakeholders and on public policy

- **Catalyze and Partner**
  Influence and engage on green freight initiatives to launch and scale projects that drive sustainability performance improvement
## Clean Cargo Working Group Members

### Cargo Carriers

- APL
- ARKAS Line
- CMA CGM
- COSCO Shipping
- CROWLEY
- Hamburg Süd
- Hapag-Lloyd
- HMM
- ICL
- MAERSK
- Maersk Line
- Matson
- MSC
- ONE
- OOCL
- UNIFEEDER
- Yang Ming Group
- ZIM

### Cargo Owners (Shippers) and LSP’s

- BMW
- Electrolux
- Heineken
- H&M
- HP
- IKEA
- MARKS & SPENCER
- Nike
- Philips Lighting
- Ralph Lauren
- Renault
- Teijin
- APL Logistics
- BDP International
- DAMCO
- Agility
- CEVA
- GeoDis
- Expeditors
- DB Schenker
- DHL
- OIA Global
- Panalpina
- SAT
- albatros
- Hillebrand
- Kuehne + Nagel
Sustainable Air Freight Initiative

A collaboration between shippers, freight forwarders, and airlines to track and reduce CO2 emissions from air freight and promote responsible freight transport.

Mission

• Our mission is to meet the needs of all air freight stakeholders for emissions data reporting; drive environmental performance improvement across the industry; and enhance the industry's relations and communications with key stakeholders and end customers.

Early Participants

• Confirmed participants include Agility, APL, DHL, EFL, Expeditors, Geodis, H&M, Maersk, Nike, OIA, Panalpina, SAT Albatros, Schenker, and UPS

• Airlines contributing to working groups will include Air France-KLM, Emirates, Etihad, SAS, United

Why Join?

• Credibly measure and report on your emissions and other performance criteria using a standardized and industry-wide methodology

• Engage in dialogue across the air freight value chain to understand needs, discuss challenges, and share best practices

• Collaborate with your peers to test and pilot innovative solutions for performance improvements

• Demonstrate your commitment to reducing emissions from air freight and increasing the sustainability of your industry in line with global climate goals
Future of Fuels: A Clean Freight Leaders Initiative

A vision of commercial road freight fueled by low-carbon sustainable technology

Our Mission

Our mission is to drive a sustainable transition to low-carbon commercial road freight with new tools, convenings, and partnerships. We do this as a business-to-business, cross value-chain, fuel-neutral group focused on lifecycle energy sustainability.

Why Join?

- Network and engage with peers to share best practices and address common challenges
- Collaborate with value chain partners to increase availability, and facilitate uptake of sustainable fuels
- Empower corporate teams to identify and evaluate viable alternative fuel options
